

The Treasure Coast Lionfish Safari is our area’s tournament aimed at reducing the number of invasive lionfish in our coastal waters and bringing this delicious, edible fish to your table!

This event will succeed in gathering research information for local scientists, reduce the numbers of this invasive species, and encourage sportsman to take an active hand in protecting the unique and diverse ecosystem we have right at our doorstep. It will also encourage a commercial market to be developed for this sustainable seafood!

During this tournament teams will be awarded cash and prizes for lionfish they capture and remove from the estuaries and reefs in the waters of Indian River, St. Lucie, and Martin Counties.

We are asking for the support of your organization to help make this event a great success. Your support can come in the form of company products, gift certificates, or monetary contributions.
